

Peer Mentor program

*"Instead of giving myself reasons why I can't, I give myself reasons why I can."
-Anonymous*

A Peer Mentor is a person with a developmental disability who has learned successful life strategies through their own experiences.

The Peer Mentoring Program is about self-determination, support and empowerment. At PsyGenics, we believe in the core value that people who receive support from the public mental health system due to a disability should be able to define what they need in life and should have access to meaningful choices and ultimately should have control over their lives.

PsyGenics is committed to providing the highest standard of care to promote empowerment and independence.

**At PsyGenics, Your Dream
Becomes Our Mission!**

PsyGenics, Inc. is extremely proud and honored to be part of your community.

As a provider of the Carelink and Consumerlink Network, PsyGenics is a comprehensive service provider in community mental health specializing in serving children and adults in the developmentally disabled and behavioral health community.

Focusing on individualized, comprehensive care, PsyGenics provides the full array of services that you or your loved one may be eligible for. It is our mission to provide the highest standard of care and to promote one's wishes, dreams, and desires as well as to be part of one's empowerment and path towards further independence. We are invested in serving the community with integrity, excellence and honor and would love to speak with you further about you or your loved ones needs and how we can be a part of achieving those dreams.

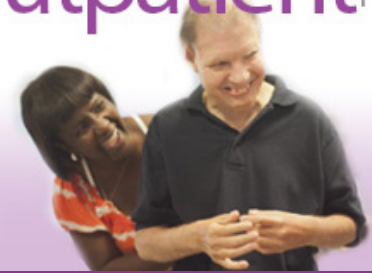

LINK TO WELLNESS

The PsyGenics Wellness Team will improve your access to routine, preventive services by eliminating barriers to the health care system. Link To Wellness is a service to assist in the integration of a consumer's physical and mental health needs.

Our link To Wellness Team will focus on four core standards; weight, cholesterol, blood pressure, blood levels and blood sugars. We will complete a thorough health assessment; provide an individualized treatment plan with practical goals and interventions and provide the support necessary for one's success.

Outpatient^{program}

Serving all ages, PsyGenics brings the highest level of excellence, care and expertise to those diagnosed with a developmental disability or mental illness. Using a multidisciplinary team approach, we incorporate the family, community and active treatment in supporting and assisting a person's goals and dreams. We believe in empowerment and advocacy as well as a person-centered approach to care.

The Outpatient Program assists in the following:

- Supports coordination
- Psychological
- Psychiatric
- Speech
- Occupational
- Behavior management
- Physical therapy
- Family therapy
- Respite care
- SOAR
- Residential assistance
- Rethink Autism
- P.L.A.Y. Project
- Project Search
- Guardianship
- Power of Attorney
- Employment Assistance
- Skill building
- Case Management

AND MUCH MORE!

It is our mission to provide the highest standard of care to be part of one's empowerment and path towards further independence.
